

Doris Todd Christian Academy

Health Information

Preschool, Kindergarten & New Students to the State of Hawaii

Students entering school for the first time or moving to the state of Hawaii must have a physical examination and TB clearance (Mantoux) within 12 months of the start date of school. TB clearance must be performed in the USA. Students must be fully immunized and provide documentation from a physician. A photocopy of the student's Official State Birth Certificate is required as well.

Please note that students will NOT be allowed to attend school without a TB clearance on file.

Students Transferring Schools within the State of Hawaii

Parents of new students must sign a release of records either at their child's previous school or at Doris Todd Christian Academy (DTCA). All records including health records and Birth Certificate will be transferred to DTCA. New students do not need a new TB clearance, but their current TB clearance must be on file at DTCA before they may start school.

Please note that students will NOT be allowed to attend school without a TB clearance on file.
